BAM! is a 501(c)3 Charitable Organization and an MCA Regional Club

April 2023 Edition

MONTHLY NEWS FROM THE BAY AREA MUSTANGS, INC.

(Article by Pepper Mills, Reporter at Large)

This month we are pleased to feature fellow BAM! Member Daniel Rodriguez and his 2021 Mustang. Daniel lives in Wesley Chapel and has worked at Walmart for the last two years as an overnight

BAM! through a Facebook posting on the Parks Ford Facebook page. Now, BAM! is Daniel's first Mustang Club, and he is already making a difference. Shortly after joining BAM! Daniel was made aware that we needed volunteers so he joined the Board of Directors and is currently serving as our Facebook Director.

stocker. His goal is to go into a trade, once he has decided on one. *(Wonder if Ford is hiring for test drivers? What, that isn't a trade? Opps. - Pepper)* Daniel's favorite hobbies are car shows, car meets, video games, and playing softball.

Daniel has loved Mustangs since he was little. He first heard about

This is Daniel's first Mustang. He purchased it on September 17th, 2021. It wasn't what he was originally looking for, he had originally ordered a Mustang in Carbonized Grey, but about two weeks after he ordered the Grey color, a beautiful Iconic Silver Mustang came off a truck in front of him, and it was love at first sight. *(Continued on page 4)*

Bay Area Mustangs is a different kind of car club. We are a club where friendships are just as important as our Mustangs and, just like when we maintain our Mustangs, a little effort goes a long way. We treat each other with old fashioned respect, and we are each accountable for our actions. Our members agree that kindness and courtesy are the hallmark of a fun and welcoming environment. Come join us.

From the Newsroom ...

By the Editor

Happy April Everyone!

My Easter wish is to have members who reach out to me because they want to be featured on the front of an upcoming newsletter. So make my wish come true and let me hear from you!

We are starting to get some help with the running of the club and we are grateful for those members

who have offered to help us out.

Hopefully, our Board of Directors will be growing soon. Not everyone has time to attend Board meetings, but helping hands ... well ... they help! So if you attend our Gatherings and help there, let us know.

As you are reading through the news, if you run across interesting Ford or Mustang news, let me know so that it can be shared here.

Also, make sure you have "Nice Ride" cars so that you can put them on any Mustang that you see and really like. This aids in our Membership Drive. Speaking of which, we want to thank Cliff Johannsen, who brought in three new memberships and has won a new BAM! T-Shirt. Congratulations Cliff.

Now start reading ...

*At my age, I can hide my own Easter eggs, wait an hour,
then have no idea where I put them. Happy Egg Hunt to me!*

- Rusty Sparks, Staff Mechanic

2023 Membership Drive

NICE RIDE!

WANNA HAVE SOME
FUN WITH YOUR

M U S T A N G

TURN CARD OVER TO
LEARN MORE ABOUT

Admired by

Write your
name here!

How would you like a membership perk while helping to grow our BAM! membership? Yes, we thought you'd like the idea. By bringing in new members, here are some of the perks now available:

- | | |
|-------------------|---|
| 1 New Membership | Gift Card for one free pretzel appetizer at Ford's Garage! (or equivalent gift) |
| 3 New Memberships | Your choice of one BAM! Hat or one BAM! T-Shirt |
| 5 New Memberships | One free BAM! membership renewal! |

New members just need to list your name on the membership application, as the person that told them about the club, and you'll get credit toward this membership drive. So invite your friends and fellow Mustang Enthusiasts. Another way to grow our membership is through use of our "Nice Ride!" cards. You can pick some up at our next event. Keep them in your pocket, and when you see a nice Mustang, leave this card on their window ... But remember to write your name on the card!

Will you be the one with bragging rights this year?

So he bought it brand new and ... literally... right off the truck. It is a 2021 Mustang Ecoboost in Iconic Silver. 2.3L turbocharged Inline 4 with a 10 speed auto transmission. Daniel estimates it has 290-310 WHP.

Daniel has named his Mustang "Money Pit". He calls her that because of the amount of money he has put into her ... and planning to put into her. Here is the list of planned modifications: Airraid intake tube with K&N drop in filter, CVF Street Intercooler, CVF charge pipes with the turbosmart raceport blow off valve, MBRP street catback exhaust, UPR dual valve catch can, and an aftermarket Performance pack spoiler.

Still out in the future, Daniel also plans on upgrading the turbo, downpipe, and getting a custom tune. Then he will be off to local and national shows.

Daniel has already won six awards so far, and plans to win many, many more in the future. Ask Daniel what he loves about his Mustang and he'll grin and say it is the looks, the power, and the attention it gets. Oh yes, another Mustang Enthusiast is born!

A Pony's Tale

(Continued from Page 1)

From the Driver's Seat...

The month of April can be a very busy month for most of us and it can mean different things to some. It's the start of Spring and the blooming of our gardens, for others it's Easter with the family, and for many it's Spring cleaning time. If you're in Accounting or a CPA, it's all about taxes and long hours. Then again for most of us Mustang enthusiasts it's about celebrating the National Mustang Day (April 17th); the birthdate of the Ford Mustang. For me, I'll be celebrating Melinda's birthday and being a good husband by going camping or taking her out to a nice restaurant ... maybe both.

If you didn't attend our BAM! Gathering on Thursday, March 2nd you missed out on some good food from Ford's Garage and a great Gathering. We had a lot of fun playing Bingo, we saw slides of past events, and we had a great raffle and 50/50 drawing. Our guest speaker was the Honorable Frank Morales (that's me!). I spoke and presented slides of specialty vehicles that went through the Kissimmee Mecum Auction. I also spoke about Mustang Club of America (MCA) and the benefits of being a member. It was a great presentation ...

As requested by a number of members, we have looked into another facility to have our Gatherings. The sun that shines on the patio at Ford's Garage, particularly during the summer, can be quite unbearable, and Ford's Garage management is unable to give us a date on when the shades will be in working condition. We also have limited parking space for our classic or show Mustangs. This is something that the Board has been working on and we have selected Walk-On's Sports Bar, at 25372 Sierra Center Blvd., Lutz, FL 33559 for our next Gatherings. This restaurant is just a couple of doors down from Ford's Garage. It also provides ample room for parking. As of right now, we are planning to start meeting there for our **April Gathering**. Also, we are moving the time of our Gatherings from 7pm to 6:30pm. Please note that our April Gathering will not be at Ford's Garage. As for upcoming events, on Saturday, April 8th we have the Parks Ford Rise & Shine Car Meet from 9:00 - 11:00 am. Parks Ford is one of BAM!'s awesome sponsors and we want to make sure we have a good presence at this event. I encourage all of you to attend, it doesn't take a lot of time and it's fun. We will have a membership booth to recruit members. Parks Ford has been doing the Rise & Shine Car Meet on the second Saturday of every month. Remember this event is open to all makes and models. So, invite your friends and lets have some fun. Hope to see you there. Talking about upcoming events, Jerry May and Cliff Johannsen are working on some fun cruises. In addition to planning some day cruises, they are also checking to see if members would be interested in doing overnights. One idea is doing a two night cruise to Birmingham, Alabama sometime in June of this year. We would also be going to see the Mustang Museum of America in Odenville, AL and Barber Vintage Motorsports Museum. Another activity is to join the Great Pony Drive for members that have the time to make this trip. If you are interested please let Jerry and Cliff know. Anyway, I would like to thank Jerry and Cliff for taking the initiative to help with BAM! activities. *(Continued on Page 6)*

The Voice *features*

WHY CHOOSE BAM?

For starters, because you want to have fun. You want to have fun with friends. You want to have fun with friends who also love Mustangs!

What more could you ask for?

You might ask for a large choice in activities, great sponsors, games and plenty of entertainment.

You certainly will get all of this with BAM!

From the Driver's Seat...

(Continued from Page 5)

On another subject, I received a call from Shane Norsworthy, General Sales Manager at Parks Ford, that several members have asked him about the Dark Horse Mustang that is scheduled to be released in 2024. Shane has informed me that Parks Ford has been allocated nine (9) Dark Horse Mustangs from Ford. So, if you are interested, please contact Shane at 813-907-7800 or you can send him an email at snorsworthy@fordofwesleychapel.com. Already we have had two members added to the list, so there seems to be a lot of interest from our members. If interested, make sure you get your name on his list ASAP and let him know you are a BAM! member.

In closing, if you are interested, have the time, and would like to volunteer to help BAM, please let me know. We need your help and support to continue BAM's success. I also want to thank Melinda Morales, our first lady, for all the work she is doing for BAM! She is currently our Treasurer, she is doing the monthly Newsletter, our event fliers, purchasing items for the raffle, coordinating the raffle, selling 50/50 tickets, handling club items, and coordinating our car show planning. Thanks Melinda, for all you do for BAM! I'm sure all our members appreciate your hard work, but we do need to get additional help to relieve some of these duties off Melinda's plate. I've been encouraged recently with the BAM! members who have offered to help. We have Angela Marcano as our Club Photographer, Jerry May as our Sargent at Arms, and we have had recent interest from Beverly and Jim Warshel, Cliff Johannsen, Deb Brannon and Tracy Gaschler. It is good to have this support from BAM! members. Thank you! I would like to encourage all of you to attend our next BAM! gatherings or activities to show your support for BAM! Please remember, if you have any questions or suggestions let a BAM! Board Member know as soon as possible. See you all Thursday, April 6th at Walk-On's Sports Bar at 6:30 pm for our monthly Gathering.

Frank Morales, President, Bay Area Mustangs (BAM!)

2024 Ford Mustang First Look: Photos and Full Details on the New Pony Car!

Ford thinks its Mustang has more gas fed prancing to do before electrification takes over.

Creating the 2024 Mustang, Ford pulled a gutsy and potentially historic move. The seventh-generation Mustang is likely the last for the gas-snorting pony car, but the fact it's purely gas-snorting at all is something of a surprise. Chevrolet is rumored to be sunsetting the Camaro as we know it ahead of an electric replacement in 2024; Dodge has confirmed its Challenger and Charger will around the same

time offer electric propulsion. A passion project in the truest sense, the 2024 Mustang team needed to justify its rationale for an internal-combustion muscle car at every turn, even with management ultimately supporting its moves. After all, Ford is in the throes of embracing electric trucks and SUVs.

Mustang enthusiasts—who've purchased about 10 million of the cars since production began in 1964—should rejoice in the fact Ford is even doing this at a time when its primary competitors are exiting the gas-powered muscle car segment and sales of coupes and convertibles continue to decline generally while cars (not SUVs and trucks) themselves are becoming an endangered species boxed out by ever-more-popular high-riding vehicles. Think about it: The Mustang, even today, is the only car Ford sells in North America. The Mustang Mach-E, an electric crossover, already outsells the traditional Mustang coupe.

Executive chairman Bill Ford said he knows the last internal combustion, stick shift Mustang will roll off the line in Flat Rock, Michigan, in his lifetime, and he will have a tear in his eye—but we're not there yet. Regardless of what the future holds, the 2024 Ford Mustang, revealed in Detroit on September 14 at the 2022 North American International Auto Show, is a commitment to many more years of traditional pony car sales. There will still be a '23 model year for the existing model with orders to open soon. And then the new-for-2024 car rides in, a de facto victory lap for the breed with its taut new looks, modern interior, electronic drift brake, and the ability to rev the engine with your key fob.

(Continued from previous page)

2024 Ford Mustang And GT Still Offered As Coupe Or Convertible

When the 2024 Ford Mustang goes on sale early next summer, consumers will still be able to choose between a coupe and a convertible, and between a base model with an EcoBoost four-cylinder or a more powerful GT with a V-8 that also comes with a manual transmission. Over a lengthy life cycle, we expect to see a rollout of heritage names such as Boss, Bullitt, and Mach 1. "There is certainly some space within this platform architecture and powertrains to do some more," Mustang chief nameplate engineer Ed Krenz says.

The new S650 platform is a modified version of the existing S550, and there are a few carryover pieces such as the roof, A-pillar, and rear glass. Notions of a Mustang hybrid or adding all-wheel drive were dropped. Ford's designers carefully honed the styling, which is as evolutionary as the new S650 bones are. The result is instantly recognizable as a Mustang and checks all the right boxes with its long hood, short rear decklid, and tapering roof. Although the four- and eight-cylinder engines are similar to today's, they're both nearly all-new; Ford is essentially building a better mousetrap here, adding some cool party tricks, more tech, and over-the-air updates made possible with its new electrical architecture. Let's stick a hoof in, shall we?

Styling The Pony Car

Early designs were tossed aside in favor of a bolder look with muscular fenders, a lower beltline, and sexier tautness. "It looks like a fist in the wind going down the road," said global design director Joel Piaskowski.

Whereas the sixth-gen Mustang went more international, the seventh generation harkens back to its American roots to provide a modern interpretation of a classic. That means new tri-bar, LED-accented headlights to match the taillights and dramatic rear angles that undercut and act like a spoiler, making the car look wider even though the proportions are largely unchanged.

For the first time, the Mustang EcoBoost wears entirely unique front styling compared to the GT. The changes go beyond distinct grille inserts. The lower outboard grille openings, which are fake on the regular Mustang, are larger on the GT with one side blocked off for aero and the other fully functional. Air also flows out through the GT's high-gloss-black hood extractor.

The roofline was crafted to ensure drivers can get in and out without removing their helmet at the track. The convertible has an insulated fabric roof with a single-handle latch and a one-touch button to open and close it.

(Continued on next page)

By Alisa Priddle (writer, Andres Trahan (Photographer), Sep. 15, 2023 (www.motortrend.com)

(Continued from previous page)

There are two new paint colors among the 11 offered: Yellow Splash and Vapor Blue, as well as new colors for stripes, Brembo brake calipers, and seat belts. A number of appearance packages allow for further customization of the look. Wheels range in size from standard 17-inch to 19-inch on the GT, with optional 20-inches.

Dramatic New Mustang Interior

Interior design manager Ricardo Garcia says it was time to shake up the interior, and he created full-scale foam bucks to elicit customer feedback on the ideas burbling up from the team, which, during a three-year period, evolved into the new, more open cockpit.

The new flat-bottom steering wheel is standard across all trims and is heftier; it's a joy to hold. The Sync4-powered infotainment system has fewer physical buttons because more functions are controlled via the screen. And about those screens: They're a real departure for Mustang, with a 12.4-inch display directly in front of the driver and 13.2-inch center screen angled toward the driver, both under a single pane of glass in most trims. Graphics are crisp and plentiful, and they change with the drive mode selected. They are also highly customizable and nostalgic—dig into the menu for the Fox Body (late '80s-, early '90s-era Mustang) faux analog dials and roll down memory lane.

Finally, there is media storage with a flat wireless charging pad, USB ports, and an angled slot for a phone. The upgraded seats come in cloth or synthetic or real leather, and the cabin has laser-grained trim that replicates carbon fiber. The top-end sound system is Bang & Olufsen, and the Mustang is Apple CarPlay and Android Auto compatible, with Amazon Alexa built in for voice commands.

Updating Mustang Powertrains

The base 2.3-liter EcoBoost turbocharged I-4 is updated to reduce emissions and increase fuel efficiency. We don't have specs yet, but engineers tell us the power will not drop, which means it should continue to push out at least 310 hp and 350 lb-ft of torque. This fourth-generation powerplant is known as an MPC (Modular Power Cylinder) engine and makes its debut on the Mustang. There is also a 2.0-liter MPC that will power the 2023 Lincoln Corsair and the 2023 Ford Escape.

(Continued on next page)

News Around the Net ...

The Voice
features

By Alisa Priddle (writer, Andres Trahan (Photographer), Sep. 15, 2023 (www.motortrend.com)

(Continued from previous page)

The 5.0-liter Coyote V-8 engine is on its fourth upgrade and is also found in the 2022 Ford F-150 pickup with cylinder deactivation capability for better fuel economy. Engineers did not want that fuel-saving system for the Mustang because it makes the engine too tall, compromising packaging and hood height, and it reduces the engine redline. For the Mustang, the upgraded V-8 has a new steel oil pan and a dual air-intake box. The twin throttle-body cold-air intake will allow twice the airflow to create the most powerful GT to date. That means it exceeds the today's 450 hp and 420

lb-ft. The car still has active exhaust with the Mustang's signature sound but adds a quiet mode to keep your neighbors happy. GT customers get a Getrag six-speed manual transmission with rev matching, or they can opt for the improved 10-speed automatic.

Larger brake rotors and calipers are included, too. Engineers say the steering is markedly more precise with a new rack and quicker steering ratio, while the excellent MagneRide electronic adaptive shocks have been tuned for the new car and will be available with a performance package. Optional performance packs are available for both the Mustang GT and EcoBoost models for more fun at the track. And the new Mustang has the Ford Co-Pilot360 suite of driver assist safety features.

Party Tricks With The 2024 Ford Mustang

There are a couple unique features to delight buyers, starting with the new electronic drift brake developed with the help of professional drifter Vaughn Gittin Jr. It normally behaves like a regular electric parking brake until you activate the "drift brake" button in Track mode, which turns traction off (you can choose traction off or advanced traction off). Then pulling on this brake causes the ABS module to hydraulically actuate the rear brakes only, in proportion to brake-handle motion. Gittin insisted it provide an instant and effortless locking, and the hydraulic actuation is vastly quicker than the electric motor that locks the separate parking-brake caliper. The drift brake comes with the Performance pack on all Mustang models. Easter egg: The Track apps icon is the Grattan Raceway track in Michigan where a lot of the engineering work was done.

(Continued on next page)

News Around the Net ...

The Voice
features

By Alisa Priddle (writer, Andres Trahan (Photographer), Sep. 15, 2023 (www.motortrend.com))

(Continued from previous page)

Another new feature: The key fob not only starts the car—it can rev it. A party trick for teenagers and those who still think they are teenagers, it is only available with the automatic transmission (to which engine stop/start is limited).

NOT DEAD YET

Ford sees continued life in the sports car segment and likes the idea of having a monopoly when the competition exits. As mentioned, Dodge will stop making the present versions of the gas-powered Charger and Challenger in 2023 (though we've heard the next versions won't only be electric), and the existing Chevrolet Camaro only has a few years left.

"Doing this car at this time is a victory in itself," Krenz says. "As others are saying goodbye, we're saying hello."

The Mustang makes it possible for an EV like the Mach-E to exist, Krenz adds. The Mach-E will carry the volume torch going forward, but in the end, it makes it possible for the pony car to continue to service enthusiasts. The engineer personally hopes the Mustang silhouette continues to exist—propulsion agnostic.

We don't know what to expect for an eighth-generation Mustang—perhaps it will be a pure EV, so the seventh gen is likely the last chance for fans to kick it back old school. The latest Ford Mustang is expected to have a long lifespan. It should be many years before Bill Ford has to wipe away that tear.

Got something to say about how much fun you are having with BAM!? Want to share pictures of your Mustang? For all the latest on what people are sharing, don't forget to follow BAM on Facebook too! Here is the link:

The Road Ahead ...

By Marbles Madcap,
Apprentice Reporter

The Parks Ford Rise & Shines are one of the fun Saturday mornings we look forward to from month to month. So get out your calendar and make sure you put a big red circle around the second Saturday of each month. 9am to 11am.

It's going to be a fun morning of great cars, a live band, and a free breakfast for all participants!

Everyone is welcome so tell all your friends to come out and join us! All makes and models are welcome! See you there!!

Parks Ford Rise & Shine

Second
Saturday of
each month!

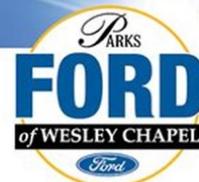

RISE & SHINE

CAR MEET

2ND SATURDAY OF EVERY MONTH
9AM-11AM

CO-HOSTED BY: **BAM!**

Parks Ford of Wesley Chapel Welcomes You!

We proudly proclaim that Parks Ford of Wesley Chapel is a full-service dealership where we put you, the customer, first! Our dealership has been serving the community of Wesley Chapel and the surrounding communities of Tampa for over 30 years with our high standards for excellent service. We want our customers to be satisfied, and also confident in their choice to bring their business to Parks Ford of Wesley Chapel. We have a courteous and committed sales staff, as well as professional, expert service technicians with many years of experience satisfying our customers' needs. We look forward to serving you and all our customers in the Tampa, Brandon and Zephyrhills areas with their next purchase on a new Ford or a large variety of used vehicles in many makes and models. We have many reasons to come to our dealership!

The Bay Area Mustangs extends our gratitude for sponsoring our new club. They will be the host of our monthly gatherings and provide discounts and prizes.

Ford's Garage of Wesley Chapel Welcomes You!

Ford's Garage is your neighborhood burger and beer joint, where everyone is welcome, especially BAM! members! Ford's Garage will give you the vibe of being in a 1920's service station to include vintage Ford vehicles, gas pumps, and fixtures. We are a gourmet burger bar serving up the finest varieties of Black Angus Beef, Turkey, Chicken, and Vegetarian products coupled with all-natural aged cheeses and gourmet toppings. We also specialize in popular American comfort food entrees. Lighter fare is also available as we also serve fresh salads, grilled chicken, and fresh fish. Our Burgers of Fame give honor and recognition to many of our local celebrities, keeping our connection to the communities we so much appreciate. Discounts on dinner provided to BAM! members at our monthly Gatherings!
